DIGITAL MULTIFUNCTIONAL COLOUR SYSTEM CDC 5526/5626

# A COLOURFUL SPECTRUM OF FUNCTIONS HAS ARRIVED.

**SMALL BUT FLEXIBLE TEAMS AND TASK GROUPS ARE PARTICULARLY IN NEED OF VERSATILE SYSTEMS THAT AID INDIVIDUAL WORK STYLES. THIS IS WHERE THE TWO A4 COLOUR MULTIFUNCTIONAL SYSTEMS CDC 5526 (3-IN-1 A4 MULTIFUNCTIONAL COLOUR SYSTEM WITH COPY, PRINT AND SCAN FUNCTION) AND CDC 5626 (4-IN-1 SYSTEM ALSO OFFERING A FAX FUNCTIONALITY) PROVIDE THE PERFECT SOLUTION.**

Equipped with HyPAS technology, both systems allow for the integration of workflows individually tailored to users, making them highly flexible and user-friendly office partners. What's more, the systems also increase team productivity thanks to impressive copy and print speeds: They deliver 26 A4 pages or 13 A4 pages in duplex mode per minute, either in b/w or colour. With a short warm-up time of only 29 seconds and a fast first colour copy after 12 or b/w copy after 10 seconds, they maintain a high pace. And there are various other features for efficient working. For example, an auto reverse document feeder with a capacity of 50 sheets, duplex mode for two-sided, paper- and time-saving printing,

and high-speed scanning at 35 (b/w) or 25 (colour) A4 pages per minute. Scanning is also where speed meets versatility: The range of options includes Scan to PC, Scan to e-mail, Scan to FTP, Scan to USB and TWAIN- and WIA-scan. A lot of flexibility is also offered when it comes to paper management. The standard paper capacity of 300 sheets can be expanded to 1,300 sheets, allowing even large print runs to be performed without having to refill the paper cassette. And as regards paper formats, the whole range from A6R to A4 is supported. The list of features is rounded off by 1 GB RAM system memory (expandable to 2 GB RAM) and an optional Card Authentication Kit for easy and secure authentication at the system – positively proving that the two systems are true all-rounders.
